

>>>>> Tube Slide

Speed through the tubes like greased lightning. Slippery in an almost endless tube made of translucent or coloured, silky-smooth and stable, cleanly joined to one another and hygienically flawless GRP elements.

Expectant suspense as you set off. Formula-1 atmosphere at the start. Sit down when the traffic lights show green. The point of no return. A trip into the realms of almost-weightlessness and a special treat for the kings among slide fans.

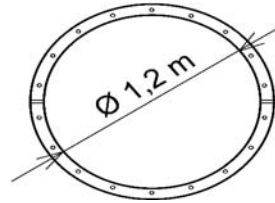

In addition, the Tube Slide can also be designed as a Black Hole. Plunge into a dark hole and be indulged and impressed by lighting and channel lights, starry skies, water curtains, mist and music.
