

>>>>> crazy river slides

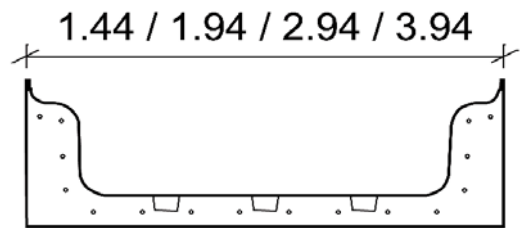

The Crazy River is the craziest river in the world. Wild-water in an artificial bed. 50 different elements make a multitude of individual designs and combinations possible.

Speed into the depths of the wild-water on stable, inflatable rings. Rapids, whirlpools, tight and wide curves on the right and left, eddies, swirling pools, still sliding sections, relaxation pools, always a surprise and then a gentle landing in a flat water or safety runout.
